CAT® INTEGRATED PROCUREMENT
BUY WITH GREATER EFFICIENCY
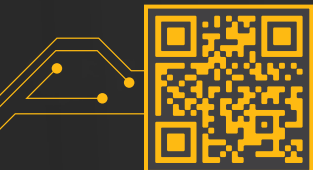

⊞ GETTING STARTED

. . . .

1. Ensure your business or procurement system is capable of sending and receiving XML through a secure HTTPS Internet connection.

. . . .

2. Ensure IT and business resources understand current business systems and have the capacity to support implementation.

. . . .

3. Contact your local Cat dealer today or visit **cat.com/ip** for more information.

. . . .

CONNECT YOUR BUSINESS SYSTEM SAVING TIME AND MONEY

» **Frees up valuable purchasing staff time** for other more important, demanding duties, such as sourcing, supplier negotiations and contracting.

» **Eliminates duplicate order entry.** Reduces or eliminates returned parts and re-orders because Cat IP search query tools identify and note correct replacement part numbers.

» **Includes new, Cat Reman, Cat Classic, dealer exchange and used parts** with easy online access to information and 24/7 ordering for all.

» **Sends order acknowledgments** to confirm orders and keep you informed about their status, improving supply chain visibility.

» **Simplify and customize your procurement processes.** Allows you to set up user preferences that suit your business goals, such as eliminating process steps, speeding up ordering, etc.

» **Lets you create frequent order lists** that save you time (e.g., no need to re-type parts you're ordering) when you place repeat orders.

» **Reduces parts order discrepancies and eliminates time spent by other team members,** including your shipping/receiving staff, who won't waste time dealing with the wrong parts.

» **Reduces equipment downtime** caused by incorrect orders, e.g., inadvertently ordering the wrong parts.

» **Provides online access to parts and service technical information,** such as Planned Maintenance (PM) Checklists and Service Information System (SIS) information.

» **Save with lower transaction costs.** Save money by reducing more costly off-contract spending.

» **Real time parts pricing and availability.** Provides customer-specific pricing.

» **Provides a connection** using up-to-date security systems and processes.
